The Gift is Yours

JOHN 1:1-14

The affirmation that Jesus is God is not a startling or difficult thought for present day Christians. It may not have been for John's readers, but it was difficult for many first century Christians of Jewish heritage. Every Jew began every morning with these words in prayer, "Hear, O Israel, the LORD our God is one." To claim that Jesus was God would be a very difficult idea for Jews to assimilate. Perhaps the point that we should understand is not just that Jesus was (and is) God, but that when Jesus is seen, God is seen. The Logos provides us access and understanding into the very nature of God - Roger Hahn (2013)

"The Word became flesh and dwelt among us..." (John 1:14)
"Why is the Incarnation of Jesus so important?" "It shows God's deep care for our physical life and creation, lends dignity to all human life." God loves flesh and blood, no matter what kind of shape it is in. Whether you are sick or well, lovely or irregular, there comes a time when it is vitally important for your spiritual health to look in the mirror and say, 'Here I am. This is the body-like-no-other that my life has shaped. I live here. This is my soul's address.' After you have taken a good look around, you may decide that there is a lot to be thankful for."
Barbara T. Bradford (2010).

"Word" is from the Greek *logos* from which we get the words "logic" and "reason".

THE STORY

FINDING YOUR STORY IN GOD'S STORY

Jesus reveals God the Father. John 1:1, 14

Jesus the Christ was made flesh. Fully God, fully man.

Jesus was born to ordinary people.

Jesus' arrival was humble. He understands our lives.

Jesus was rejected by many. John 1:10-11.

The inn was too crowded for Mary & Joseph.

Much of the world remains too crowded to fit Jesus in.

Jesus didn't come to complicate our lives.

Jesus didn't come to add joy to our lives.

Jesus came to GIVE us life!

Jesus gave His life for the whole world. Everyone!

What will you do with the gift of Jesus?
